

Pot of chocolate muffin

Elements of the invention:

- 230 gr flour
- 80 g unsweetened cocoa
- 1 envelope yeast
- 150 gr sugar
- 2 eggs
- 65 g of sunflower oil
- Milk 230 gr

Development of elements:

Preheat oven to 200 °.

Mix all the dry ingredients: flour, cocoa, yeast and sugar. Reserve

Mix liquid items: eggs, sunflower oil and milk.

We integrate the solids with liquids.

Oil the pot and I put aluminum foil on the bottom so as not to leave the mixture

Bake for 20 minutes.

Enjoy!!!
